Hope for Haiti's Children recently received a shipment of IDES' God Always Provides (GAP) meals. Marieshelle, Center Administrator, shared that there are over 300 students in their primary school and for many of those students the meal they get at school is the only one they'll have all day. Some of the students come down from mountain villages, a 30-40 minute walk, and they especially look forward to a good nutritious meal. Thank you for helping IDES pack and ship these meals.
